

Ali Muhammad

Full Stack Web Developer

☎ +923175585860 ✉ alimuhammadk360@gmail.com 🔗 linkedin.com/in/ali-muhammad-khan

Summary

Full Stack Web Developer with expertise in Node.js for backend API development, Python for automation, and React.js/Next.js for frontend applications. Experienced in building scalable solutions, integrating SQL and NoSQL databases, and writing clean, maintainable code. Strong ability to debug issues, enhance performance, and collaborate in Agile environments.

Skills

Programming: JavaScript, TypeScript, Python, Java, C++, SQL

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, Flask, RESTful API Development

Databases: MongoDB, SQL (MySQL, PostgreSQL - Familiar)

Tools: Git, GitHub, Postman, Figma, Vercel, VS Code

Core Skills: API Development, Automation Scripting, Database Design, Debugging, Scalable Systems

Soft Skills: Communication, Problem Solving, Team Collaboration, Time Management, Adaptability

Experience

Frontend Developer

Firnas.tech

June 2025 – January 2026

Tools: VS Code, GitHub, Vercel

- Engineered responsive interfaces using React.js, Next.js, and Tailwind CSS, increasing cross-device performance by 30%.
- Integrated backend APIs developed with Node.js to enable efficient data flow.
- Collaborated in code reviews and deployment workflows within Agile teams.
- Enhanced application speed and reduced latency by 25% through structured data handling.

Projects

Machine Learning Intrusion Detection System (FYP) | *Python, Flask, React*

March 2025 – February 2026

- Developed backend services using Python and Flask for real-time threat detection.
- Processed network traffic data and implemented automation logic for anomaly detection.
- Designed a dashboard using React.js to visualize alerts and system activity.

Interactive 3D Portfolio Website | *React.js, Three.js*

December 2024 – March 2025

- Created a modern portfolio with interactive UI and animation features.
- Applied rendering techniques to ensure smooth performance across devices.
- Structured components for maintainable and scalable design.

COMSATS University Website | *React.js, Tailwind CSS*

September 2025 – November 2025

- Built a responsive academic web interface using modern frontend tools.
- Improved maintainability through reusable component architecture.
- Deployed the application on Vercel for stable hosting.

Awards & Certifications

- **FYP Competition – COMSATS (2025):** Certificate of Excellence.
- **Hackathon Participation (2024):** Applied full stack development skills.
- **Foundation of Data Science – Coursera:** Intro to data analysis and machine learning.

Education

Bachelor of Science in Software Engineering (BSSE)

COMSATS University Islamabad, Abbottabad Campus

2022 – 2026

CGPA: 3.02 / 4
